DIVISION OF
OIL, GAS & MINING

NOTICE OF INTENTION TO REVISE MINING OPERATIONS

When an operator intends to revise a mining operation, a Notice of Intention to Revise Mining Operations shall be filed with the Division. The notice must include all information, concerning the revision, that would have been required if it had been included in the original Notice of Intention (NOI). Ideally, the revision application should be a "stand-alone" document and include all information necessary to conduct a complete review.

"REVISION" means a significant change to the approved Notice of Intention to Conduct Mining Operations, which will increase the amount of land affected or alter the location and type of onsite surface facilities such that the nature of the reclamation plan will differ substantially from the approved Notice of Intention. Revisions require public notice and may require approval by the Board of Oil, Gas & Mining, if a change to the amount and/or form of the reclamation surety is necessary.

"AMENDMENT" is an insignificant change to the approved Notice of Intention. An amendment requires Division approval, but does not require public notice.

The Division will determine whether a request for change is significant or insignificant on an individual case-by-case basis.

PLEASE NOTE: When applicable, reference to previously approved information contained in the original NOI can be used (identify volume #'s, section, page #, plate/map #'s, & date of submittal). If possible, please attach appropriate copies of the referenced material as part of the application for revision.

Where possible, please format the application to revise mining operations (e.g., text, maps, tables, figures, etc.) to allow direct insertion into the original NOI as replacement pages, or as a separate addendum to the approved NOI.

AMENDMENT

The following information must be included as part of the application to revise mining operations:

I. GENERAL INFORMATION (Rule R613-004-104)

1. Name of Operator/Applicant: Umetco Minerals Corporation

2. Address: P.O. Box 307

La Sal, Utah 84530

3. Phone: (801) 686-2228

4. Name of Mine/Project: La Sal

5. Previously Assigned File Number: ACT
M / 037 / 026
*from original Notice of Intention (NOI)

6. Location of Proposed Activities:

COUNTY San Juan

TOWNSHIP 28 S, RANGE 24 E,

SECTION(S) SE 1/4 SW 1/4 S 34 (Identify to 1/4, 1/4 section)

7. Ownership of Land Surface:

Private (Fee) X Owners Name(s): Redd
(Private) _____

State of Utah _____ Public Domain (BLM) _____ National Forest (USFS) _____

8. Ownership of Minerals:

Private (Fee) X Owners Names(s): Redd
(Private) _____

State of Utah _____ Public Domain (BLM) _____ National Forest (USFS) _____

9. Utah Mining Claim Number(s) _____

10. Utah State Lease Numbers(s) _____

- II. Enclosed is a map of the vent hole site. Also shown is the old vent hole site where a concrete pad has been poured. This pad will be removed if this vent hole is not required.
- III. A 7-ft. diameter vent hole will be drilled to the level of the mine workings (700 feet). The vent hole will be cased and the casing cemented in to prevent any ground or perched water from entering the vent hole. The estimated acres to be disturbed will be 0.10 acres and will consist of a 14' x 14' concrete pad. A cutting catch pond (25' x 25' x 5') will be utilized at the site. The top soil will be saved and the pond reclaimed and seeded after drilling of the vent hole.
- IV. The site is on a brush covered alluvial plain and the vent hole will be cased and cemented to prevent any ground or plucked water from entering the hole.
- V. After completion of mining the vent hole will be filled with waste rock and a 5' concrete plug will be placed at the top of the hole leaving 2' for soil replacement at the top of the plug.

VII. SURETY (Rule 613-004-113)

Reclamation Surety:

Indicate whether the proposed activities will change the amount of work required to reclaim the minesite. If significant changes will result, then a reclamation cost estimate should be provided with direct reference to the specifics of the proposed change(s). This information will be used to assist the Division in determining any reclamation surety adjustments required for the operation.

VIII. SIGNATURE REQUIREMENT

The application for permit change must include a section similar to the following example:

I hereby certify that the foregoing is true and correct.

Signature of Operator/Applicant: John S. Vanderpool

Name (Typed or Print): John S. Vanderpool

Title of Operator/Applicant: Chief Geologist

Date: 5/2/89
